SET WORK TIME
(3 HOURS MAXIMUM)
ONCE TIME IS SET,
DISPLAY GOES BLACK

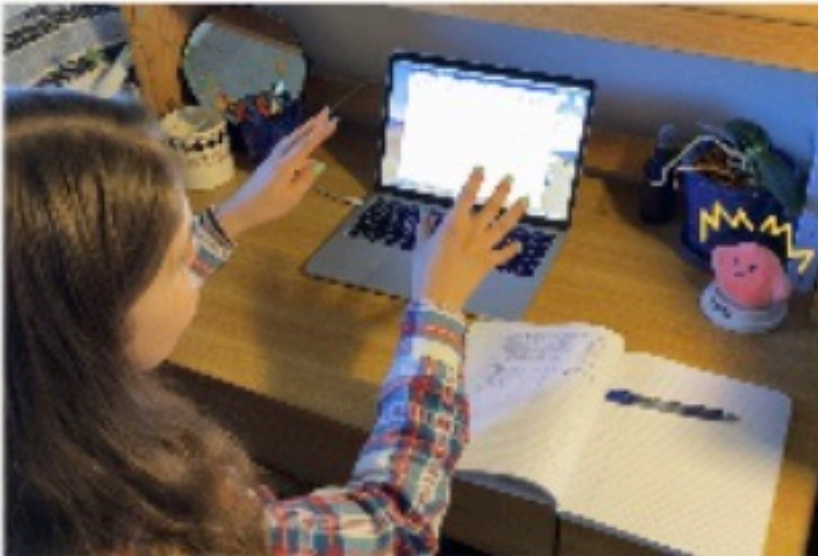

HOW IT WORKS

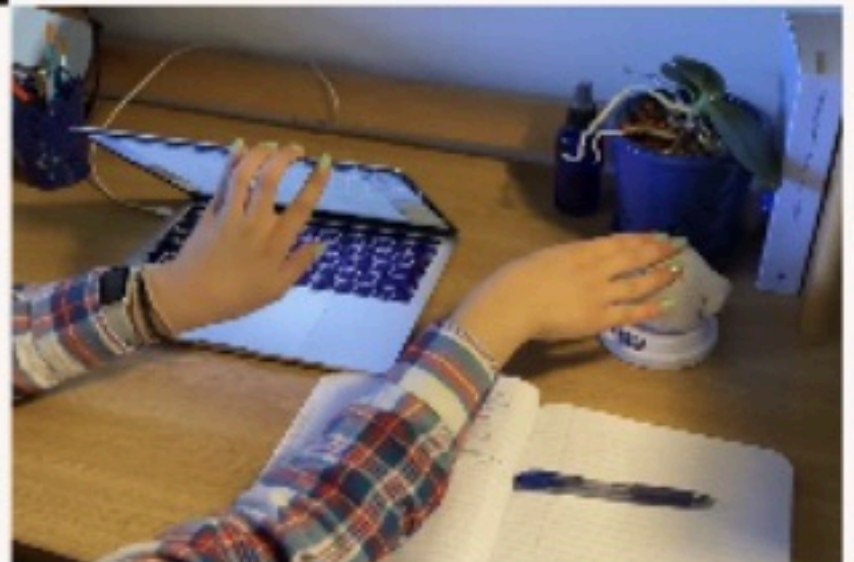

- 1 Set an amount of focus time (3 Hours MAX!)

- 2 Gary turns more red as time passes

- 3 Gary switches to his angry face and yells when time is up

- 4 Tap his head to shut him up and TAKE A BREAK!!!

AUDIENCE & PROBLEM

On average, the work day is

48.5 minutes longer

for people who **work from home**

SOLUTION

Gary helps people who work from home create healthy separation between their work and home lives by strongly encouraging them to take a break after working for a long period of time.

TAKE A F**CKING BREAK!!!
