

WHEEL-A-ROUND

Sketches & Iterations

Problem Statement & User Profile:

Traditional backpacks are difficult to take on and off the chair, making it challenging to quickly grab your necessities. The Wheel-A-Round is a stationary bag made to stay upright at the wheel rotates, so your belongings do not get tossed around. The convenient bag is made with two large zipper pockets for ample amounts of storage. Attached at the axle, the Wheel-A-Round is sturdy, durable and more accessible than a standard backpack.

Movement 1 → Movement 2 → Movement 3

Wheel-A-Round is made to stay vertical with each wheel rotation making it easy to grab anything
