

The background of the page features a large, light-colored watermark of the University of Colorado Boulder seal. The seal is circular and contains the Latin motto "ANIMATA" at the top, a central figure of a Native American holding a bow and arrow, and the year "1876" at the bottom. The text "UNIVERSITY OF COLORADO BOULDER" is also visible within the seal's border.

Year of the University

NORLIN CHARGE TO THE GRADUATES

The first commencement at the University of Colorado was held for six graduates on June 8, 1882, in the chapel of Old Main. It was not until 40 years later, on September 4, 1922, that the first summer commencement was held. Since the first commencement in 1882, the University of Colorado Boulder has awarded more than 350,000 degrees. The traditional Norlin Charge to the graduates was first read by President George Norlin to the June 1935 graduating class.

You are now certified to the world at large as alumni of the university. She is your kindly mother and you her cherished sons and daughters.

This exercise denotes not your severance from her, but your union with her. Commencement does not mean, as many wrongly think, the breaking of ties and the beginning of life apart. Rather it marks your initiation in the fullest sense into the fellowship of the university, as bearers of her torch, as centers of her influence, as promoters of her spirit.

The university is not the campus, not the buildings on campus, not the faculties, not the students of any one time—not one of these or all of them. The university consists of all who come into and go forth from her halls, who are touched by her influence, and who carry on her spirit. Wherever you go, the university goes with you. Wherever you are at work, there is the university at work.

What the university purposes to be, what it must always strive to be, is represented on its seal, which is stamped on your diplomas—a lamp in the hands of youth. If its light shine not in you and from you, how great is its darkness! But if it shine in you today, and in the thousands before you, who can measure its power?

With hope and faith, I welcome you into the fellowship. I bid you farewell only in the sense that I pray you may fare well. You go forth, but not from us. We remain, but not severed from you. God go with you and be with you and us.

THE REGENTS OF THE UNIVERSITY OF COLORADO

Back row: Linda Shoemaker, District 2 (Boulder); Lesley Smith, At Large (Boulder); Chance Hill, District 5 (Colorado Springs); John Carson, District 6 (Highlands Ranch); Glen Gallegos, District 3 (Grand Junction).

Front row: Heidi Ganahl, At Large (Superior); Sue Sharkey, Chair, District 4 (Castle Rock); John “Jack” Kroll, Vice Chair, District 1 (Denver); Irene Griego, District 7 (Lakewood).

Dear Graduate:

One of the greatest honors for the University of Colorado Board of Regents, the institution’s governing board, is to be part of this commencement ceremony. Your success is a success for us all. Your degree is a measure not only of an accomplishment of dedication and talent, but also notice to the world that you have the skill and discipline to contribute greatly to any endeavor you pursue.

This commencement ceremony, like every University of Colorado graduation since 1935, will close with the reading of the Norlin Charge. As originally expressed by former CU President George Norlin in 1935, graduation “marks your initiation in the fullest sense of the fellowship of the university, as bearers of her torch, as centers of her influence, and as promoters of her spirit.” Welcome to the ranks of CU’s alumni family of 475,000 graduates across all campuses since 1882. Congratulations on achieving this milestone. Well done and well earned!

THE PRESIDENT AND CHANCELLOR OF THE UNIVERSITY OF COLORADO

Dear University of Colorado Graduate,

Congratulations on earning your degree from the University of Colorado Boulder.

This is a momentous time in your life and the lives of those who have supported you. We take great pride in what you have accomplished at CU Boulder and are grateful you are part of our university family.

When you walk away from this exciting day, our hope is that you will do so with a passion to pursue your dreams. Never forget how the university shaped you and prepared you to face life's challenges, just as you helped shape your university. Expect nothing but the best from yourself and those who surround you.

The University of Colorado community is proud of you and your accomplishments. As you leave here to start careers, draw on your academic achievements at CU Boulder to help you succeed and inspire others.

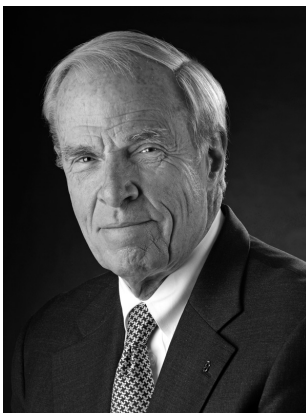

Welcome to the generations of alumni around the globe who carry that CU pride within them. Our collective legacy has been to leave a positive and meaningful mark on Colorado and the world.

Today is your day to shine and share your accomplishments with your family and friends. We wish you success, prosperity, happiness and good health in all your endeavors.

Sincerely,

Bruce D. Benson

ACADEMIC DRESS

In 1896, U.S. colleges and universities adopted a uniform code governing academic dress. University of Colorado master's and doctoral degree recipients wear hoods lined with the university colors, silver and gold. The velvet border indicates the degree and usually follows the same code as the color of the tassels.

The Oxford cap, or mortarboard, has a long tassel

fastened by a button on the top. Candidates for baccalaureate degrees wear the tassel over the right front of the cap before the degree is conferred, and over the left thereafter. The color of the tassel on the bachelor's cap indicates the field of study, with the exception of the BA degree, whose candidates wear white tassels indicating the arts. To read about the significance of recognition cords or stoles, go to colorado.edu/commencement/academic-dress.

THE PRESIDENTIAL CHAIN OF OFFICE AND THE UNIVERSITY MACE

The Presidential Chain of Office holds three suspended pendants. The back pendant is the seal of the state of Colorado surrounded by a golden ribbon representing the golden circle of knowledge. The top pendant in the front is the seal of the University of Colorado surmounted by an arch set with diamonds and topaz, signifying the necessary link between the search for knowledge and its practical application to the world beyond the university. At the center of the bottom pendant is a gold topaz indicating the quest for knowledge.

The University of Colorado Mace was created for the commencement ceremonies of May 1984. The foot of the scepter is encased in sterling silver bound in 14-karat gold, ending in an intaglio of the seal of Colorado. The shaft of the mace was carved from

a black walnut tree thought to have been one of the saplings given to the settlers of the Colorado Territory by President Abraham Lincoln.

THE UNIVERSITY SEAL

The University of Colorado seal depicts a male Greek classical figure sitting in front of a pillar and holding a scroll. Next to the figure, laurel branches frame a burning torch. The inscription in Greek reads Let Your Light Shine. The laurel symbolizes honor or success; the youth suggests the morning of life; and the scroll represents written language.

The seal is used primarily on official documents, such as diplomas and transcripts that have been issued on behalf of the university. The Board of Regents uses the seal on its official documents and publications. The seal also appears on the President's Chain of Office, the University Mace, regent regalia and various formal publications.

COMMENCEMENT SPEAKER

Savannah Sellers

An Emmy award-winning correspondent for NBC News and MSNBC, Savannah Sellers is a co-host of NBC's *Stay Tuned*, the go-to news brand for Generation Z, available on Snapchat, Instagram, YouTube and TikTok. She is also the host of *NBC News for Universal Kids*, the only daily TV news program created specifically for children.

Sellers has covered an array of politics and pop culture topics, including gun violence in America, conducting interviews with several of the students from Marjory Stoneman Douglas High School in Parkland, Florida.

Sellers has won a News & Documentary Emmy for her work as a producer on the *NBC Nightly News* series "Hooked: America's Heroin Epidemic." She co-hosts the Global Citizen Festival and works closely with Red Nose Day as part of NBCUniversal's partnerships with charity organizations. Sellers is also a co-host of the Gates Foundation's Goalkeepers conference.

Originally from San Diego, California, Sellers earned a degree in broadcast news and international media in 2013 from the University of Colorado Boulder's School of Journalism and Mass Communication.

HONORARY DEGREES

Stanley Ruttenberg (1926–2017)

With an intellectual curiosity that fed interests in planet Earth, the cosmos, fine wine, string theory, classical music and skiing, Stan Ruttenberg spent his life indulging two main passions: geophysics and the music of Gustav Mahler. As divergent as those might seem, Ruttenberg found equal value in serving the scientific community for decades and growing the Colorado MahlerFest to international prominence.

Born in 1926, Ruttenberg earned a Bachelor of Science in physics from MIT in 1946 and a Master of Arts in physics from UCLA in 1951. During his nine years at the National Academy of Sciences, he became a writer and co-director of several episodes of the 1962 *Planet Earth* film series, which explained geophysics to students in 25,000 U.S. high schools (and again for the 1980–85 update). He was head of the program office for the U.S. National Committee for the International Geophysical Year and was secretary to its follow-up program, the International Year of the Quiet Sun. In 1964, he began a 16-year career at the National Center for Atmospheric Research (NCAR) in Boulder when founder Walter Orr Roberts hired Ruttenberg as his assistant. Among his many contributions at NCAR, Ruttenberg was part of the transition allowing universities and scientists to use

ARPANET, the classified military document-sharing network, laying the groundwork for the modern internet.

Ruttenberg administered the Global Atmospheric Research Program and spent 14 years at the University Corporation of Atmospheric Research (UCAR), where he was an early director. He held positions in many international scientific organizations, foreseeing the need to preserve and share data among the global community of earth scientists, including those in China and the Soviet Union. As a coordinator of a student program in 1974, Ruttenberg insisted that the project be open to women equally, a rarity at the time.

Before and during his retirement, Ruttenberg and his wife, Pat, helped to build the Colorado Mahlerfest into a magnet for world-class performances and scholarly talks. The 2005 recipient of the Mahler Gold Medal from the International Gustav Mahler Society, Ruttenberg quietly asked that the award go to the Mahlerfest as a whole.

For his significant contributions to science, the arts and public service, the Board of Regents is pleased to award the honorary degree Doctor of Science, *honoris causa*, to Stanley Ruttenberg.

Herman A. Shelanski

Vice Admiral Herman A. Shelanski holds a BS in molecular, cellular and developmental biology from CU Boulder and a Master of Science in electrical and space systems engineering from the U.S. Naval Postgraduate School. He is a graduate of the Armed Forces Staff College, the Navy Nuclear Power School and Prototype, the Naval Reactors Commanding Officer Nuclear Engineer course and the Naval War College.

Shelanski had a distinguished 37-year Navy career, commanding both an aviation squadron of E-2C Hawkeyes and the nuclear-powered aircraft carrier USS Harry S. Truman. Both of his commands earned the Battle Efficiency Award, the Navy's highest recognition for team performance.

In November 2014, he attended a leadership course as part of the Navy's Executive Learning Program, where he learned new concepts in behavioral economics, decisions science and negotiation—and promptly generated ideas for how he would apply these concepts to improve the Navy and military decision processes more generally. He was then invited to serve as visiting distinguished

leader in residence for the Harvard Kennedy School's Leadership Decision Making executive education program, serving as coach and mentor to emerging leaders in industry and government from around the world. In the words of a colleague, Shelanski is “a brilliant bridge builder” who creates innovations by leveraging knowledge “across the (too often separate) domains of academia and defense.”

Shelanski assumed his duties as Naval Inspector General in May 2015, reporting directly to the secretary of the Navy for matters of morale, regulatory compliance, effective installation performance, ethics and senior official performance. He is credited with redefining the role of inspector and improving the expertise and ethical character of the Navy.

The Board of Regents is pleased to award the honorary degree Doctor Science, *honoris causa*, to Herman A. Shelanski in recognition of his leadership and his achievements in introducing behavioral science into military decision-making.

HONORARY DEGREE

Peter Zoller

Peter Zoller is an Austrian physicist whose research involves the interaction of laser light with atoms and molecules. His numerous seminal papers and major works have spawned entire new areas of research in theoretical and experimental physics. He has written books that are well known by specialists in the field, including a textbook on “quantum noise” that is widely used in graduate courses, and has been called “an international treasure for the physics community.”

Zoller has had a long and continuous association with JILA on the CU Boulder campus, beginning with his appointment as a JILA Visiting Fellow in the 1980s (a prestigious title that he has held twice). From 1991 to 1994 he taught in the Department of Physics and founded CU’s theoretical research program in quantum sciences, establishing a legacy in quantum computation research that continues to this day. He made major contributions to the research programs that led to three Nobel Prizes in physics awarded to scientists from CU (Cornell, Wieman and Wineland). In 1994 he returned to Innsbruck, Austria, as a professor of theoretical physics and is now director of the Institute for Quantum

Optics and Quantum Information of the Austrian Academy of Sciences.

He has received numerous scientific awards, including the Norman F. Ramsey Prize (2018), Willis E. Lamb Prize (2018), Herbert Walther Prize (2016), Wolf Prize in Physics (2013), Benjamin Franklin Medal (2010), Dirac Medal (2006), and Max Planck Medal (2005).

Zoller has been a tremendous mentor to students and postdoctoral research associates at CU Boulder, and many of his students have gone on to major research and teaching positions throughout the world. A number of current JILA and CU physics faculty members have benefited directly from Zoller’s teaching. He is, in one colleague’s words, “a shining example of the very best that physics has to offer, both in terms of his historic research achievements and the remarkable character of his humanity.”

The Board of Regents is pleased to award the honorary degree Doctor of Science, *honoris causa*, to Peter Zoller in recognition of his pioneering work in physics and his enduring association with CU Boulder.

UNIVERSITY MEDAL

Kazunori Takato

Since earning a degree in mathematics from CU Boulder in 1973, Takato-san has exemplified what it means to be an outstanding alumnus. As a new graduate returning to Japan, Takato founded a successful manufacturing business, and today is president and CEO of Chiyoda Rubber Company. In the intervening 45 years, Takato has grown the Tokyo chapter of the CU Alumni Association into one of our largest international groups, with 400 members. He has spent countless hours locating, connecting and networking with CU alumni, providing social and business engagement opportunities.

Takato also volunteers his time for the Leeds School of Business First-Year Global Experience. A gracious and generous host to CU Boulder interns, faculty and alumni, Takato was instrumental in the 2016 founding of the Japan Internship Program in CU Boulder’s Center for Asian Studies. He has funded scholarships and

hosted students who have benefited from his hospitality, immersion in rich cultural experiences and introductions to business associates. He has even served as tour guide, taking students, alumni and faculty to historic sites and steeping them in Japanese culture during a three-day road trip.

As one of the university’s most enthusiastic alumni, Takato became a founding member of the Global Ambassadors, an international advisory group to the chancellor. At the inaugural Global Ambassadors meeting in Florence, Italy, he immediately offered to host the next meeting in Tokyo, continuing a lifelong connection to CU Boulder.

The Board of Regents is pleased to award the University Medal to Kazunori Takato in recognition of his decades of generous service to the University of Colorado and its alumni.

SAFETY AND ACCESSIBILITY

The University of Colorado Boulder works diligently to ensure the safety of our graduates, their families and their friends during the spring 2019 Commencement Exercises. You can do your part by noting the following:

- Once you are seated in Folsom Stadium, locate the nearest exit. If you are seated on the field level, you should exit north (toward Dal Ward Athletic Center).
- Listen carefully and follow any instructions that might be issued by the Master of Ceremonies or other public safety authority.
- Parents should keep their children with them at all times.
- Pay particular attention to the safety of any elderly people and people with disabilities.
- If directed to evacuate Folsom Stadium, move away from the stadium and remain outside until you receive an all-clear by a public safety authority.
- If necessary, seek assistance from a robed Commencement marshal, uniformed police officer or security guard.

The following services are available to ensure equal access to people with disabilities:

- Real-time captioning will be displayed on the main video board. Captioning can also be viewed on personal mobile devices (go to mobilecap.net and enter login code 2969).
- Assistive listening devices are located at the information kiosks. (Note: A photo ID must be left with staff when obtaining this device.) American Sign Language interpreters will be located in Section 119.
- Large-print brochures are available at the information kiosks.
- Wheelchair seating is available in Sections 103, 114, 118, 119 and 121. Wheelchair assistance is provided at the north side of Duane Physics. Service animals are welcome at all campus ceremonies.
- Accessible shuttles and limited courtesy transportation are available.
- For emergency medical treatment, please dial 911. Event security staff can help during medical emergencies.

CONGRATULATIONS!

To all Buffs and their families, our local community members, CU Boulder faculty and staff, we celebrate you. Congratulations on a memorable year!
